A \$718 Pot & Ron Loses !!

Ron Had Both Tickets!

Can you imagine having TWO chances at finding the joker in our micro-deck and missing?

Sigh! Ron is a good natured member and will try again next week - along with everyone else!!

Bob Kennedy

brought a Baseball Quiz to our tables this week with a couple of dozen questions referring to strange or seldom-used terms - we were all supposed to answer the questions, ID all the options presented and if each table LOST then every member was to come up with \$2 at that table!

Our "head table" got'em all we are told but the rest of us paid up!

Joyce Elliott

gave \$5 happy dollars celebrating her grandson's win of 2 gold medals and one bronze at the recent Bay State Swim Meet at Harvard!

Nicholas Sionkiewicz is a student at the Marblehead Charter School and won local events that propelled him to the regional meet in Cambridge!! Congratulations Nicholas!!

Bob Dugas

is back from his jaunt to Canada but did not meet "Miss Canada" this year.

Monday Night at 6 P. M.

is our open house supper with the campers at Camp Rotary in Boxford. Every member is invited to join us for a great time. Please come.

Our New President!

This past weekend your editor was at a special celebration at Fort Williams Park in Cape Elizabeth, Maine hosted by Past RI Director Dan Mooers and his wife Shirley.

Rotary International President John Kenny was the honored guest and was a warm, gracious individual from Scotland - this was his very first "official visit" as president in the Rotary World and his dedication to Rotary and its goals was quite evident.

He commented to me that he had been surprised how many of the guests had mentioned to him they, too, had attended the International Convention in Glasgow in 1997 as did Clara and myself. It was a wonderful event!

He urged all of us to work hard for Rotary and its programs for clean water throughout the world, literacy and of course the elimination of Polio worldwide.

Cape Elizabeth Light Park - a gorgeous location for several Rotary events over the years - you can easily see why!
