High in the Trees - Our "Ropes" Course

Many of you have heard Rotarians occasionally mention our "Zone" activities and might wonder what is being referred to.

This is a wonderful opportunity for Rotarians to learn more about Rotary and to enjoy it immensely at the same time!

These events are particularly oriented for Rotarians and family who are active in District activities such as perhaps an incoming or a past Governor or District Foundation Chair.

Next September will be our final get-together before zones 31 & 32 join each other under the new organizational plan. It will be in Ontario at a gorgeous hotel.

Many Rotarians you have met and know will be there as well as the president and leadership of Rotary International, & our directors from many regions.

There will be exciting programs about Rotary you can find nowhere else other than at an event such as this!

For more complete information, use this web link below - it will explain a lot.
